Strukturüberarbeitung Herbst 2015

14 October 2015 16:57

• Es macht keinen Sinn berufliches und privates unter einen Hut zu bringen. Die zweisprachigkeit macht auch mehr Probleme als dass sie Nutzen bringt.

Easy CMS Integration

Awesome, so how does it work?

Love letters? Crafting Type are concentrated workshops that teach absolute beginners how to create a typeface. You will be ushered through the entire type design process: from sketching secrets to digital drawing techniques to OpenType coding and more.

Our team of professional type designers reveals the secrets to crafting typefaces with an approach to teaching that is hands-on, encouraging, interactive—and fun!

We provide all of the necessary software, plus hundreds of fonts to study and play with. No previous experience of type design is required. We even cover how to earn money with your skills.

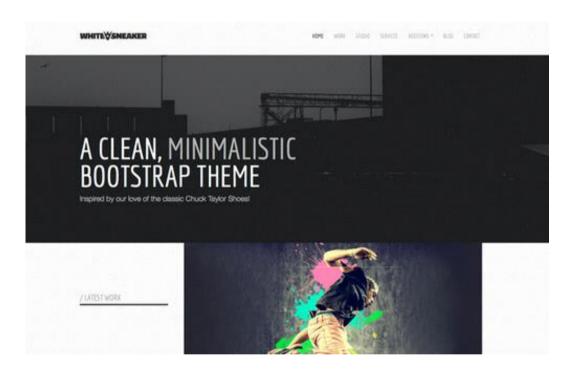

What you'll leave with (in addition to some fond memories) are new typography skills, new tools for drawing type, and the first key letters of your own type design.
